

Position: Intern

Job Type: **Internship**

Location: **Napa/Sonoma, CA**

Tentative Start: **June**

Tentative End: **August/September**

Acme Engineering Inc. has been in business for over 20 years. We are a leading civil and agricultural engineering firm servicing the Napa and Sonoma Counties. Our services are specialized in water resources and include designing for irrigation, frost, cooling systems, erosion control, drainage, earthworks, grading, pump and well development as well as automation design. Our goal is to provide the highest level of integrity to our clients in an efficient and expert manner.

We are located in Napa, California, about an hour west of Sacramento. We are looking for someone to join our small, dedicated team who is enthusiastic about providing solutions for our clientele. You should be a motivated individual with prior experience in the agriculture industry.

This position will require working in the office and directly in the field so you will become familiar with the “big-picture” structure of agriculture, vineyard development and waterworks in Northern California Wine Country. To be a successful addition to our family, the ideal candidate should be well-organized, attentive, and detail-oriented with good communication skills.

Job Description:

- Automation programming, bench testing and installation
- Field work to include GPS As-Built documentation, vine-counts
- Performing construction inspections
- Drafting

Optimum Candidate Skillset:

- Pursuing a BS in Civil Engineering, BioResource and Agricultural Engineering, Crop Science, Agricultural Systems Management or other ag related degree
- Familiar with various irrigation pump systems and water systems
- Proficient in AutoCAD, Microsoft Excel and Word
- Comfortable with irrigation automation systems
- Basic electrical knowledge for low voltage DC
- Competent working individually in remote areas
- Able to work long days in the field as necessary
- Current valid driver's license

For consideration, please email your resume to Jon Terry at info@acmeng.com
